Dear David and Brett
As per our discussion this afternoon.
My story is well known I have had a chronic Lower back and Shoulder problem for many years , particularly the last 5-7 have been the worst. Until Now !!!
I came back from Europe this year again seeking treatment, (I had had treatment while in the UK), for lower back and leg pain, shoulder pain and anything that would give me some relief and a decent nights sleep. I had more than a dozen physio and 6 chiropratic visits. I must also tell you that I had had the injection in my right hip join prior to travelling to the UK, that gave some temporary relief. Though I had all but given away playing golf I was at a club having just given someone a playing lesson (them playing me along for the walk), when a member overheard me telling an enquirer that I was not playing much any more because of the back, shoulder and leg problems I had. This gentleman told me of the old days (of which I was aware) when the old muscle guys used to frequent the footy clubs and athletic meetings, doing their magic. All or most have now passed away. However he did tell me that some of the old boys did have apprentices whom they taught their techniques to.
He said he knew of one who was semi retired living in Tasmania somewhere. Desperate to try anything or anyone who may be able to help where conventional treatment had failed I set out to contact this chap. Success through the internet was quickly made and he agreed that if I was willing to travel to Tasmania he would see me. The rest of the story is now well documented, I waited a few weeks to see how successful my* 'one treatment' was and called him some weeks later proposing that he should come to Melbourne and see some athletes, baseball players, crickets, footballers and just anyone who had a problem to do with muscles, backs, necks,legs,megrim head aches, arms shoulders etc., * ALL THE THINGS THAT HE CAN DO TO HELP* PEOPLE WHO ARE SUFFERING AND are fed up with promises and paying out for endless treatments that aren't getting results !
This is his 4th visit to Melbourne and the number of people and sports people he has seen are proof of his ability to help.
It is all about helping people.
I went through enough years of pain and broken sleep that I want to be able to do something to give people the opportunity I have enjoyed from being treated by Peter Hosrfield's Muscle Clinic.
Please feel free to use this email to send a message to the clubs and players, coaches and parents that this option available.
I have plenty of current player, personal trainer and coaches references to back up my statements I have not listed them in this email for privacy reasons.
