

OH MY GOD!

I cant believe he's not god!

My name is Tracey, I was born with scoliosis, I broke my neck, cheekbone & nose waterskiing. I have throughout my life, broken my collarbone three times, four ribs and my pelvis. I have suffered chronic pain in my neck, shoulder and back for the last 20 years. I have seen Drs, physio's, remedial massuers, and pain management centres many times, only to feel no relief.

Surgeon's have told me theres nothing that can be done for me due to severar scar tissue.

One visit to Peter (The muscle man, I call him the miracle man) and 96% of my pain was relieved after only ONE visit. I had immediate relief. I felt that good I wanted to kiss him.

I thankyou so much Peter, I will, forever and a day. You restored my faith in the medical profession and I will be forever in your debt. I only wish the medical profession would take a leaf from your book, maybe then many people could feel as good as I do now. It's been three weeks since my visit, and I still feel amazing.

I wrote this by hand to give it my personal touch, Thankyou thankyou Thankyou for your personal touch!

You are an amazing man.

Tracey
